## Graduate Athletic Training Program

### Technical Standards for Admission

The graduate Athletic Training program at SUNY Brockport is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the Athletic Training program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Athletic Training Education {CAATE}). The following abilities and expectations must be met by all students admitted to the Athletic Training program. In the event a student is unable to fulfill these technical standards, with or without reasonable accommodation(s), the student will not be admitted into the program.

Compliance with the program's technical standards does not guarantee a student's eligibility for the BOC, Inc. certification exam.

#### **Candidates for selection to the Athletic Training program must demonstrate:**

1. the cognitive capacity to assimilate, analyze, synthesize, integrate concepts and problem solve to formulate assessment and therapeutic judgements and to be able to distinguish deviations from the norm.
2. sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients.
3. the ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgements and treatment information effectively.
4. the ability to record the physical examination results and a treatment plan clearly and accurately.
5. the capacity to maintain composure and continue to function well during periods of high stress.

6. the perseverance, diligence and commitment to complete the athletic training education program as outlined and sequenced.
7. flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
8. affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Candidates for selection to the athletic training program will be required to verify they understand and meet these technical standards or that they believe that, with certain accommodations, they can meet the standards.

SUNY Brockport's Student Accessibility Services will evaluate a student who states they could meet the program's technical standards with accommodation(s) and confirm that the stated condition qualifies as a disability under applicable laws.

If a student states they can meet the technical standards with accommodation(s), then the Department will determine whether it agrees that the student can meet the technical standards with reasonable accommodation(s); this includes a review of whether the accommodation(s) requested are reasonable, taking into account whether accommodation(s) would jeopardize clinician/patient safety, or the educational process of the student or the institution, including all coursework, clinical experiences and internships deemed essential to graduation.

I certify that I have read and understand the technical standards for selection listed above, and I believe to the best of my knowledge that I meet each of these standards with or without accommodation(s). I understand that if I am unable to meet these standards with or without accommodation(s), I will not be admitted into the program.
