2024/25 – V19

Financial Aid
SUNY BROCKPORT

Thank you for submitting all documents required to complete your financial aid file for the 2024-2025 academic year. Your file is now in the verification process in which we verify that the information reported on the FAFSA agrees with all submitted documentation.

During the verification process, we noticed that on your parent's federal income tax return, they reported income (profit or loss) generated from a business/farm. However, when reviewing the FAFSA, you did not state the net worth of your parent's business/farm. The net worth of the business/farm means the current value minus debt.

*Value includes the land, buildings, machinery, equipment, inventory, etc.

*Debt includes only those debts in which the business was used as collateral and is still outstanding.

As of the date I completed the FAFSA, the net worth of my parents' current business(es) and/or investment farms is: \$_____. (Indicate the net worth of your business/farm and return this information to the Financial Aid Office. We can not assume a "blank" to mean "zero").
