Financial Aid
SUNY BROCKPORT

Thank you for submitting all documents required to complete your financial aid file for the 2026-2027 academic year. Your file is now in the verification process in which we verify that the information reported on the FAFSA agrees with all submitted documentation.

During the verification process, we noticed that on your federal income tax return, you reported income (profit or loss) generated from a business/farm. However, when reviewing the FAFSA, you did not state the net worth of your business/farm. The net worth of the business/farm means the current value minus debt.

Businesses and farms include businesses (including small or family-run businesses) owned by you that have more than 100 full-time (or full-time equivalent) employees, along with the fair market value of real estate owned by the business. They also include income producing farms that you own, including the fair market value of land, buildings, livestock, unharvested crops, and machinery actively used in farming, agricultural, or commercial activities.

Businesses and farms do not include businesses with 100 or fewer full-time (or full-time equivalent) employees; the value of a family farm on which the family resides; the value of crops that are grown solely for consumption by the student and their family; a commercial fishing business and related expenses, including fishing vessels and permits owned and controlled by the family; or the home in which you live.

As of the date I completed the FAFSA, the net worth of my current business(es) and/or investment farms is: \$_____. (Indicate the net worth of your business/farm and return this information to the Financial Aid Office. We can not assume a “blank” to mean “zero”).

If you have any questions, please contact the Financial Aid Office.
